

# Technology in the Modern Legal Workspace

In today's challenging era, law firms have to be more productive than ever, to stay competitive. Most small- and medium-sized law firms continue to utilise conventional, manual methods of managing their law firms. These firms have generally had minimal exposure to the types of technology that can enhance their productivity and collaboration in the workplace.

It is of utmost importance for business leaders and managers to find ways to better empower employees, and remove barriers that stand in the way of effective collaboration. However, this can be a daunting task with our modern-day mobile workforce.

Gaps can be minimised by adopting new technology that promotes communication and collaboration between employees, and companies will be able to reap benefits by digitally transforming their companies' operations.

## The talk will cover the following topics:

- (a) Global perspectives on legal workspace challenges in different cultures;
- (b) Challenges in legal workspaces in Malaysia;
- (c) Modern workspace features: How to make your legal workspace more effective and collaborative; and
- (d) Microsoft O365: Impact on the modern legal workspace, and available options.

## About the Speaker

**Derrick Yap** is a Microsoft-certified engineer with excellent deployment and migration skills on Microsoft Messaging solutions.

He completed his studies in the field of information technology ("IT") at Stamford College. He continues to improve his professional skills and knowledge by educating himself with Microsoft's very own Cloud Platform University, to keep up to

date with the latest Microsoft technologies.

He has approximately seven years of experience in the IT industry. At his current company, he has assisted many partners and customers to increase productivity and improve collaboration with modern workspace and digital transformation technology.

He has conducted many presentations and workshops, including Association of Chartered Certified Accountants ("ACCA") events, a MS CSP CLOUD roadshow, a MS M365 Partner event, and Crayon Workshops.
