Breakout Session 2

28 Oct 2026 (Wednesday) | 1:00 pm to 2:15 pm

Directors' Duties in the Environmental, Social and Governance Era: Balancing Growth with Sustainable Governance

This session addresses the interplay between the core principle of a director's fiduciary duty to act in the best interests of the company and the global shift in emphasis towards environmental, social and governance ("ESG") mandates. The panellists will examine if there are any tensions between the two concepts, and, if so, how best to navigate them. Other matters to be addressed include the current ESG framework in this jurisdiction and an assessment of the effectiveness of the existing regime.

Join us for an engaging discussion as our panellists explore these evolving considerations and their implications for directors and companies.
