Breakout Session 3

28 Oct 2026 (Wednesday) | 2:15 pm to 3:30 pm

The Discovery of Evidence: Artificial Intelligence and the Position of the Core Principles of Discovery

What is the position of the core principles of discovery in the ever-evolving age of AI and the management of large volumes of data? This session will consider the extent to which the traditional principles of discovery ought to be maintained or modified considering the increased reliance on advanced methods to process vast amounts of information, such as meta and hyper data systems.

Join us for an insightful discussion on how AI and big data are reshaping the principles of discovery.
